Thanks for draft. See what you think about my tweaks. If you are good, go ahead and send.

Thanks, John

Hi John:

Here's the draft email.
Please feel free to edit.

Subject: FW: Palos Verdes Shelf: Upcoming PVSTIEG Meeting

Here's John's response to my suggestion. So we should just draft something to send back. Maybe you can take a stab and I'll look at it.

That sounds good and I agree – I know Enrique would agree as well

Hi Judy,

I just wanted to follow up on this and see if you are able to invite some additional people to this PVSTIEG meeting? Specifically, I'd like to invite LA Waterkeeper as they are engaged on the DDT issue. Can I share the agenda and invite with them?

Thank you. Katherine

Hi Judy. This is great and I got the save the date and am looking forward to the reconvening of the PVSTIEG!

For Heal the Bay, you can drop Dana Murray from the list as she is no longer with HtB.

We also came up with some suggested additions to the PVSTIEG that are below – I couldn't easily locate emails for all of them but think that these scientists and technical experts would be important to have in the conversations.

Best, Katherine

Subject: Palos Verdes Shelf: Upcoming PVSTIEG Meeting

Hi All:

Hope this email finds you well.
It has been quite a while since we last met as a group.
It is time for another PVSTIEG meeting.

Please use the Doodle link below to identify your availability for the weeks of April 26th and May 3rd.
https://doodle.com/poll/f5yb5m9ettdth29x?utm_source=poll&utm_medium=link

Please provide your response by COB, April 13th.

The purpose of this meeting is to provide you with an update on the process and timing of the Focused Feasibility Study, and to solicit your input on the upcoming Second Monitored Natural Recovery Report.
In addition, I think it will be good to have some discussion on the deep water ocean disposal site that was highlighted in the October 2020 LA Times article.

Since it has been a while since we last met, I would appreciate it if you can let me know if there are people in your organization that should be added to or deleted from the PVSTIEG mailing list.
In addition, please let me know if there are other technical experts that should be added to the PVSTIEG membership.

As usual, I will send out a draft agenda soon after we set a meeting date and the final agenda and presentation materials before the meeting date.

Thank you for your willingness to help EPA addressing the cleanup of Palos Verdes Shelf.

Judy
